

# I See Love

## I See Love

Million radios  
Million voices  
Summer dresses  
Red as roses  
I will tell your fortune  
Just meet me up over the candy store  
You're a lucky man, Señor,  
I see love

I see children  
Playing on the street below  
I see a young man  
Playing the ragged Romeo  
Go and find her  
When the moon comes up tonight  
If the stars are lined up right  
I see love

It keeps coming around  
What is lost can be found  
What is broken can mend  
Don't give up, my friend  
'Cause I've seen it all  
In my crystal ball  
And it's coming round again

Pretty little dreamer  
Queen of the neighborhood  
Standing by a streetlight  
And looking like Hollywood  
Did I tell you  
I got a call from Lady Luck  
She said things are looking up

I see love
