

Inside Your Heart

Inside Your Heart

Look inside
Look inside
Look inside your heart

Out of the cold, cold night
Into the burning sun
You've taken them
You're killing them one by one
Can you see
Can you understand
That times like this
Come down to just one man
Don't just play the part
Do what lies inside your heart

Hold a man against his will
Don't you understand
You hold the human race as well
Don't you understand
What cause is this
That's worth this price
Of a heart like stone
Of a heart like ice
Don't just play the part
Do what lies inside your heart

Look inside
Look inside
Look inside your heart
Let that be your only guide
It's not too late to start

You can run
But you cannot hide

You can't escape
What you know inside
In the end it's only you
Who must answer for
The things you do
Don't just play the part
Do what lies inside your heart
Have mercy
It's in your heart
