## Moon

Here comes the moon  
The same old moon  
That fools the fools  
Comes waltzin' in here  
Like he owns the place  
I've seen this guy  
I know his moves  
I'd know him anywhere  
I know those stars on his wing-tip shoes

The sky is lightning  
The air gardenias  
And I just came to dance  
The rate I'm going  
At four for a quarter  
It pays to take a chance  
The girls look pretty  
In the glow of the jukebox  
As they dance by the light of the moon  
You gotta keep dancing  
Or it catches up to you

Come outside  
And we'll drive through the night  
With the rain in our hair  
Once you go down to Kalia Road  
You can smell the sea  
We can go out there  
Way out where  
The breakers roll  
Singing 'Once you have found her  
Never let her go'

The moon sits down  
Starts telling the bartender  
There was a girl  
Then his voice trails off  
And he looks at me  
So I say tell me something  
Are you the first prize  
Or is it just my luck  
You always find me  
No matter what

Come outside  
And we'll drive through the night  
With the rain in our hair  
Once you go down to Kalia Road  
You can smell the sea  
We can go out there  
Way out where  
The breakers roll  
Singing 'Once you have found her  
Never let her go'
